Re: Who Will be Held Liable Under The Law for Crimes Against Humanity for Lockdown Measures & Experimenting on the People with drugs

Anna de Buisseret Explains Who Will be Held Liable Under The Law for the “Biggest Crimes Against Humanity Ever Committed”

Dated Nov 21, 2021

“There is nowhere to run, there is nowhere to hide!”

In this brilliant interview, lawyer Anna de Buisseret explains clearly and eloquently how those responsible for causing harm will be held liable under the law in relation to the experimental injections currently being rolled out, especially to young children. She describes how those who have explicitly or implicitly aided and abetted governments in a military grade psychological operation have essentially committed crimes against humanity and that they will inevitably be held accountable, as has happened throughout history.

“The Idea that a bunch of bureaucrats in 2020-21 get to come along and set aside our rule of law, claiming there’s a Public Health Emergency is NOT legal, it’s NOT lawful!”

Having been accused of issuing threats, Anna declares she is simply a messenger and that the law is the law. She is simply pointing out what the law is because people need to be aware of what they are doing and the harms they are causing.

“Under Common Law: Over his/her own mind or body the individual is sovereign”

Notice of Liability for mRNA vaccinations

This Notice of Liability was written by UK lawyer Anna de Buisseret. Its intended use is to be signed and sent to teachers or head masters of schools in the United Kingdom, in order **to warn the recipients of the grave harm that mRNA vaccinations may cause to children.**

You will need to edit all parts of the notice that are highlighted in yellow.

Anna de Buisseret has further informed Corona Cases that: the Notices have been – and are continuing to be – served on people both here in the UK and globally. **The NoLs have to be adapted to quote the relevant domestic law in each country**, but the European and International law is the same.
