# ATTORNEY TOM RENZ - VACCINE WHISTLEBLOWERS: MISCARRIAGES INCREASE 279% CANCER INCREASES 296%

NEUROLOGICAL ISSUES UP 1000%

Whistleblowers have been extracting data out of the DOD database, and Attorney Tom Renz reveals what they have found regarding vaccine injuries at Senator Ron Johnson's Covid Panel. Attorney Renz names the names of the Whistleblowers with their permission. Attorney Renz also describes the shocking findings in the declarations of the Whistleblowers. They gave their declarations under the penalty of perjury. Attorney Renz will be filing these findings in court.

Renz Whistleblowers Data Finds:

- \* Substantial Data Showing Miscarriages increased by over 279% since the Covid-19 vaccine. The data was compared to a 5 year average of miscarriages.
- \* Substantial Data Showing Cancers increased by over 296% over the 5 year average.
- \* An Extreme Increase in Neurological Issues since the vaccine (which would impact our pilots.) The Whistleblower DOD data shows a 1048% increase. Neurological Cases went from 82K a year to 863K in just 1 year...the year of the Covid-19 vaccine.
- \* Whistleblower data shows U.S. Military are being experimented on, injured, and in some cases possibly killed.
- \* Allegations of doctored Department of Defense data on the number of cases of myocarditis. Last August myocarditis cases were up 20+%. The number in Jan. 2022 now only shows a 2+% increase.
- \* DOD Project Salus says that the 71% of new cases were in the vaccinated and a 60% of hospitalizations comes from fully vaccinated people. Not the unvaccinated as Fauci stated on Television multiple times. (The DOD removed this data from their once public website when Renz first revealed it last year.
