Re: **BLA 125742**

COVID-19 mRNA Vaccine (BNT162/PF-07302048)

Part 1 of the Original Submission – Rolling Biologics License Application (BLA)

Request for Priority Review Designation

Dear Dr. Gruber,

Please find enclosed Part 1 of the Original Submission of the rolling Biologics License Application (BLA) for the BNT162b2 vaccine candidate developed by BioNTech and Pfizer under BB-IND 19736 for the prevention of COVID-19 caused by SARS-CoV-2 in individuals ≥ 16 years of age. This vaccine was granted Fast Track Designation for individuals ≥ 18 years of age on 07 July 2020. The [Grant Fast Track Designation Letter](#) is provided in Module 1.7.4. Submission of this BLA as a rolling application was agreed during the teleconference of 16 April 2021.

BioNTech and Pfizer are requesting Priority Review Designation for this BLA. It meets the criteria for Priority Review Designation, as outlined in the 2014 *Guidance for Industry: Expedited Programs for Serious Conditions – Drugs and Biologics* because BNT162b2 prevents a serious and life-threatening condition (COVID-19) and, if approved, would provide a significant improvement in safety and effectiveness because there are currently no vaccines licensed for the prevention of COVID-19 in the US. The [Priority Review Designation Request](#) is provided in Module 1.2.
